

Chapter 22. Releases from Federal Obligations

22.1. Introduction. This chapter discusses the laws, regulations, policies, and procedures pertaining to sponsor requests for a release from federal obligations and land use requirements. The FAA Administrator's authority to grant a release depends on the type of obligating document, such as a property conveyance or grant agreement.

The FAA Administrator's authority to grant a release depends on the type of obligating document, such as a property conveyance or grant agreement. It also depends on the type of grant agreement, such as airport planning, noise mitigation, or airport improvement. Furthermore, the timing and circumstance of the particular document affects the Administrator's ability to grant a release. In all cases, the benefit to civil aviation is the FAA's prime concern. (Photo: CAP)

Any property, when described as part of an airport in an agreement with the United States or defined by an airport layout plan (ALP) or listed in the Exhibit "A" property map, is considered to be "dedicated" or obligated

property for airport purposes by the terms of the agreement. If any of the property so dedicated is not needed for present or future airport purposes, an amendment to, or a release from, the agreement is required.

In all cases, the benefit to civil aviation is the FAA's prime concern and is represented by various considerations. These include the future growth in operations; capacity of the airport; the interests of aeronautical users and service providers; and the local, regional, and national interests of the airport. It is the responsibility of the FAA airports district offices (ADOs) and regional airports divisions to review the release request and to execute the release document, if appropriate.

22.2. Definition. A "release" is defined as the formal, written authorization discharging and relinquishing the FAA's right to enforce an airport's contractual obligations. In some cases, the release is limited to releasing the sponsor from a particular assurance or federal obligation. In other cases, a release may permit disposal of certain airport property.

22.3. Duration and Authority. When the duration of the physical useful life of a specific grant improvement ends, the sponsor is automatically released from its federal obligations for that grant without any formal action from the FAA. The physical useful life of such a facility extends to the time it is serviceable and useable with ordinary day-to-day maintenance. However, airport land acquired with federal assistance under the Airport Improvement Program (AIP) and/or conveyed as surplus or nonsurplus property is federally obligated in perpetuity (forever).

The Administrator has delegated to ADOs and regional offices the authority to release, modify, or amend assurances of individual sponsor agreements under specific circumstances as prescribed in this chapter. ADOs and regional airports divisions do not have the authority to modify the list of assurances in a grant agreement. In addition, ADOs do not have the authority to effect a release permitting the abandonment, sale, or disposal of a complete airport. (See Order 1100.5, *FAA Organization - Field*, issued February 6, 1989.)

22.4. FAA Consideration of Releases.

a. General. Within the specific authority conferred upon the FAA Administrator by law, the Administrator will, when requested, consider a release, modification, reform, or amendment of any airport agreement to the extent that such action has the potential to protect, advance, or benefit the public interest in civil aviation. Such action may involve only relief from specific limitations or covenants of an agreement or it may involve a complete and total release that authorizes subsequent disposal of federally obligated airport property. Major considerations in granting approval of a release request include:

- (1). The reasonableness and practicality of the sponsor's request.
- (2). The effect of the request on needed aeronautical facilities.
- (3). The net benefit to civil aviation.
- (4). The compatibility of the proposal with the needs of civil aviation.

Any release having the effect of permitting the abandonment, sale, or disposal of a complete airport must be referred to the Director of Airport Compliance and Field Operations (ACO-1) for approval by the Associate Administrator for the Office of Airports (ARP-1). (See Order 1100.5, *FAA Organization – Field*, issued February 6, 1989.)

b. Types of Federal Obligations. Generally, a sponsor can be federally obligated by the following actions:

- (1). Acceptance of a federal grant for an aeronautical improvement, including land for aeronautical use. Property listed on the Exhibit “A” of a grant agreement is obligated, regardless of how it was acquired or its purpose.
- (2). Acceptance of a conveyance of federal land.

(3). Federal grants for a military airport program (MAP), for noise, and for planning. Planning grants contain a limited list of assurances and do not impose all of the obligations of a development grant.

(4). Acquisition of property with airport revenue, regardless of whether the property is on the Exhibit "A" or ALP.

(5). Designation of property for aeronautical purposes on an ALP. Once designated for aeronautical use, the property may not be used for nonaeronautical purposes without FAA approval.

c. Types of Release Requests. Various conditions and circumstances can affect the manner and degree of sponsor federal obligations and the procedures for release from these obligations. A sponsor can request different kinds and degrees of release, including the following general categories:

(1). Change in the use, operation, or designation of on-airport property.

(2). Release and removal of airport dedicated real or personal property or facilities for disposal and/or removal from airport dedicated use.

22.5. Request for Concurrent Use of Aeronautical Property for Other Uses.

If aeronautical land is to remain in use for its primary aeronautical purpose but also be used for a compatible revenue-producing nonaeronautical purpose, no formal release request is required. This is considered a concurrent use of aeronautical property and requires FAA approval. Aeronautical property may be used for a compatible nonaviation purpose while at the same time serving the primary purpose for which it was acquired. For example,

The FAA will consider releases from federal obligations, changes in use, and changes in designation according to the types of release requests in connection with the various federal obligations. In some cases, FAA's approval of a change in use is not a release of a specific federal obligation. Rather, it may represent FAA's concurrence with a sponsor's proposed change in use to eliminate any potential impact on a general federal obligation to provide aeronautical access and to operate and maintain infrastructure. For example, the FAA should not release property on the approach end of a runway if this results in a structure or construction that would impact the airport. As shown here, the highway on the lower left corner of the photograph has resulted in an extensive displaced threshold, diminishing the utility of the airport. (Photo: CAP)

there may be concurrent use of runway clear zone land and low growing crops to generate revenue.

Airport sponsors considering requests to use airport land for recreational purposes who are planning future airport development projects should assess potential applicability of section 4(f) of the Department of Transportation Act of 1966 (49 United States Code (U.S.C.) § 303).^{49 50}

Airport sponsors considering requests to use airport land for recreational purposes who are planning future airport development projects should assess potential applicability of section 4(f) of the Department of Transportation Act of 1966 (49 U.S.C., recodified at section § 303).

a. Surplus Property Land and Concurrent Use. In some cases, surplus property land is designated as aeronautical use by its transfer documents. If so, a sponsor must request a release of its federal obligation to use such land for aeronautical purposes if it wishes to use it for nonaeronautical purposes exclusively. However, if the sponsor will continue to use the land for its primary aeronautical function, then a compatible nonaeronautical use could be considered a concurrent use. Such a concurrent use would not require a release from the surplus property requirement.

The FAA should review such concurrent use to ensure it is compatible with the primary aeronautical use of the surplus property land. FAA should also confirm that nonaeronautical use does not prevent the use of the land for needed aeronautical support purposes. Surplus property designated for aeronautical use should not be approved for concurrent nonaeronautical use if such use degrades – or potentially degrades – the aeronautical utility of the parcels in question.

b. Grant Land and Concurrent Use. Land purchased pursuant to an FAA grant is presumed to be in pursuit of an aeronautical purpose. However, some grant land may be suitable for concurrent use. Requests to use grant land for concurrent use should be approved by FAA. This consent can be in the form of an amendment to an ALP. Grant land may be used for a compatible nonaviation purpose while at the same time serving the primary purpose for which it was acquired.

⁴⁹ Department of Transportation (DOT) Section 4(f) property refers to publicly owned land of a public park, recreation area, wildlife or waterfowl refuge, or historic site of national, state, or local significance. It also applies to those portions of federally designated Wild and Scenic Rivers that are otherwise eligible as historic sites or that are publicly owned and function as – or are designated in a management plan as – a significant park, recreation area, or wildlife and waterfowl refuge. (See 49 U.S.C. § 303.)

⁵⁰ See 23 CFR § 774.11(g) and FHWA and FTA Final Rule; Parks, Recreation Areas, Wildlife and Waterfowl Refuges, and Historic Sites, 73 F.R. 13368-01, March 12, 2008 (Interpreting DOT Section 4(f) not to apply to temporary use of airport property.)

As with surplus property, grant land designated for aeronautical use should not be approved for concurrent nonaeronautical use if such use degrades – or potentially degrades – the aeronautical utility of the parcels in question.

22.6. Request for Interim Use of Aeronautical Property for Other Uses. The ADOs and regional airports divisions may consent to the interim use (not more than five (5) years) for nonaviation purposes of dedicated aeronautical land. This is the case whether or not the land was acquired with grant funds, is surplus property, or is otherwise dedicated for aeronautical use. A request for a use that would exceed three (3) years should be subject to concurrent use guidelines. FAA approval shall not be granted if the FAA determines that an aeronautical demand is likely to exist within the period of the proposed interim use.

Aeronautical demand might be demonstrated by the existence of a qualified aeronautical service provider expressing interest in such property for aeronautical use, or by projected growth in airport operations. Interim use should not be incompatible with current or foreseen aeronautical use of the property in question or other airport property. If the land in question is grant land, FAA consent or approval must be based on a determination that the property as a whole has not ceased to be used or needed for airport purposes within the meaning of the applicable statute.

Interim use represents a temporary arrangement for the use of airport land for nonaeronautical purposes. Therefore, it must be anticipated that the interim use will end and the land will be returned to aeronautical use. If a proposed nonaeronautical use will involve granting a long-term lease or constructing capital improvements, it will be difficult – if not impossible – to recover the land on short notice if it is needed for aeronautical purposes. Such a use is not interim and should not be treated as such. Therefore, interim use should not be approved if the proposed use will prevent the land from being recovered on short notice for airport purposes. Interim use proposals should be carefully evaluated to ensure that what is being proposed as a temporary arrangement is not really a long-term or permanent change in land use.

The ADOs and regional airports divisions may consent to the interim use of dedicated aeronautical property for nonaviation purposes. Regardless of how the property was acquired, these FAA offices have the authority to decide whether the airport may use such property for nonaeronautical purposes or not.

22.7. Release of Federal Maintenance Obligation. A partial release may be granted to an airport sponsor to remove the obligation to maintain specific areas of the airport pursuant to Grant Assurance 19an, *Operation and Maintenance*. Such circumstance would occur when airport facilities are no longer needed for civil aviation requirements. It is unlikely that a total release would be granted under the circumstances. Note that a release from the maintenance obligation is not a release from all the terms of Grant Assurance 19 since many of the obligations in that assurance apply to the airport as a whole.

a. Other Terms. A release of the federal maintenance obligation does not constitute a release of the land from other applicable terms and conditions or covenants with the applicable compliance agreements. The most common example of such a release is when airport sponsors request the FAA to release a particular parcel of land or facility from the federal obligation dedicating it to aeronautical use. This, in turn, may permit revenue producing nonaeronautical use of the parcel. The same result can be obtained without a formal maintenance obligation release, simply by approving a change to the ALP showing the parcel in question as nonaeronautical.

b. Unsafe. When it becomes unsafe for aeronautical purposes, the airport sponsor may have to discontinue an aviation use (i.e., a dilapidated taxiway). FAA's Flight Standards office should be involved in all matters related to decisions dealing with, or relying upon, a safety assessment. If the airport sponsor no longer requires the use of the runway, it must seek a release from Grant Assurance 19, *Operation and Maintenance*.

22.8. Industrial Use Changes.

Certain surplus property restrictions prohibiting the use of the property as an industrial plant, factory, or similar facility have been repealed by Public Law (P.L.) No. 81-311. The FAA will issue the releases or corrections to eliminate restrictions that may have been repealed or modified by laws, such as these industrial use restrictions.

22.9. Release of National Emergency Use Provision (NEUP).

a. General. Practically all War Assets Administration (WAA) Regulation 16 and P.L. No. 80-289 instruments of disposal of real and related personal property also contain the National Emergency Use Provision (NEUP). Under this provision, the United States has the right to make exclusive or nonexclusive use of the airport or any portion thereof during a war or national emergency. This provision is similar in all such instruments.

A request for release of the NEUP should be limited to parcels that are no longer needed for aviation purposes. The NEUP represents the U.S. Government's interest and ability to reactivate an airport as a military facility in case of war or national emergency. This provision has been used several times. One example is the former Naval Air Station (NAS) Miami, which in 1952 was reactivated as a Marine Corps Air Station during the Korean War. The Navy Department took over the facility from its civilian sponsor from 1952 through 1958, after which it was returned to civilian control. In other cases, old World War II installations decommissioned after the War were never reactivated. Since many had excessive parcels of land, such as the one depicted here, the FAA has granted several releases for disposal over the years and, if permitted by DoD, released the NEUP as well. (Photo: USAF)

(See a sample NEUP legal description and release request at the end of this chapter.)

b. Procedures. The FAA may grant a release from this provision, which is often referred to as the recapture clause. When requesting a release of the NEUP clause, the airport sponsor must provide the FAA with adequate information, including property drawings and property description, in duplicate. However, the concurrence of the Chairman of the Department of Defense (DoD) Airports Subgroup Office [HQ USAF/XOO-CA, 1480 Air Force Pentagon, Room 4D1010, Washington DC 20330-1480] is also required. FAA must make the request to DoD.

The FAA regional airports division will forward the documentation required to the FAA headquarters Airport Compliance Division (ACO-100). If approved, ACO-100 will then request DoD's concurrence. Upon receipt of DoD concurrence, ACO-100 will forward the determination to the FAA regional airports division for release of the NEUP.

The FAA regional airports division must provide a copy of the release instrument to the appropriate Army Corps of Engineers District Engineer's office. The FAA will not approve a request for release of the NEUP involving the whole airport. In addition, DoD generally does not concur with a request for release of the NEUP if the release involves actual runways, taxiways, or aprons. A request for release of the NEUP should be limited to parcels that are no longer needed for aviation purposes.

The NEUP represents the U.S. Government's interest in and ability to reactivate an airport as a military facility in case of war or national emergency. This provision has been used several times. One example is the former Naval Air Station (NAS) Miami, which in 1952 was reactivated as a Marine Corps Air Station during the Korean War. The Navy Department took over the facility from its civilian sponsor from 1952 and 1958, after which it was returned to civilian control.

In other cases, old World War II installations decommissioned after the war were never reactivated. Since many had excessive parcels of land, the FAA granted several releases for disposal over the years and, when permitted by DoD, released the NEUP as well.

22.10. Release from Federal Obligation to Furnish Space or Land without Charge. FAA may release a sponsor from Grant Assurance 28, *Land for Federal Facilities*. Before granting this release, the ADO or regional airports division should evaluate all pertinent facts and circumstances and obtain concurrence from other offices within the FAA such as Air Traffic and Airways Facilities, the National Oceanic and Atmospheric Administration (NOAA), or other interested and qualified federal entities. The office may accomplish the release either by discharging the sponsor from the assurance or through an amendment to the grant agreement.

22.11. Release of Reverter Clause. In order to promote appropriate private investment in airport facilities, the sponsors of surplus property may seek to remove a provision giving the United States the option to revert title to itself in the event of default of the sponsor to the conditions of its surplus property federal obligations. This reverter clause is an important remedy intended to be reserved to the United States Government; it will not normally be released

and the ADOs cannot grant such a release. Any such proposal to release the sponsor from the reverter clause shall be referred to ACO-1 for consideration.

22.12. Exclusive Rights Federal Obligations cannot be Released without Release and Disposal of the Parcel or Closure of Airport. Any airport that has received federal assistance is subject to the exclusive rights provision discussed in chapter 8 of this Order, *Exclusive Rights*. This federal obligation exists for as long as the airport is used as an airport. Therefore, there is no provision for a release from this federal obligation without disposal of the parcel involved or disposal of the entire airport.

22.13. Federal Obligations Imposed with the Airport Layout Plan and Exhibit "A." A sponsor has a federal obligation to maintain an up-to-date ALP and is required to present an accurate Exhibit "A" upon the execution of a federal grant. The sponsor is required to continue developing the airport according to the approved land uses associated with those documents and in accordance with proposed changes submitted to the ADO or regional airports division for consideration, documentation, and approval.

22.14. Procedures for Operational Releases or Requests for Change in Use. For releases other than land, the sponsor must begin with a formal request signed by an authorized official. Although a specific format is not required, the request should include the following:

- a. Affected agreement(s)/ federal agreements.
- b. Modification requested.
- c. Need for the modification.
- d. Facts and circumstances that justify the request.
- e. State and local law pertinent to the document.
- f. Description of facilities involved.
- g. Source of funds for the facility's original acquisition.
- h. Present condition of facilities.
- i. Present use of facilities.

22.15. Release of Federal Obligations in Regard to Personal Property, Structures, and Facilities. Personal property, structures, and facilities may have been acquired through a federal surplus property conveyance, a federal grant, or through purchase with airport revenue. Personal property, structures, or facilities acquired with federal assistance require a release or federal procedure. Personal property, structures, or facilities acquired through nonfederal sources and not using airport revenue do not require a release or federal procedure. Nonetheless, these items of personal property, structures, or facilities should be considered assets of the airport account.

a. Surplus Property Releases of Personal Property, Structures, and Facilities. Surplus airport property falling into the categories of personal property, structures, and facilities may be released from all inventory accountability (whether or not the airport at which they are located is included in chapter 13, *Civil Airports Required by Department of Defense for National*

Emergency Use, of FAA Order 5190.2R, List of Public Airports Affected by Agreements with the Federal Government) when it has been determined that such property acquired with federal funds:

- (1). Is beyond its useful life;
- (2). Has deteriorated beyond economical repair or rehabilitation;
- (3). Is no longer needed;
- (4). Has been replaced;
- (5). Is to be traded to obtain similar or other property needed for the airport;
- (6). Has been destroyed or lost by fire or other uncontrollable cause and the ensured value, if any, has been credited to the airport fund; or
- (7). Has been, or should be, removed or relocated to permit needed airport improvement or expansion, including salvage or other use, elsewhere on an airport.

b. Abandonment, Demolition, or Conversion of Grant Funded Improvements. The FAA may grant a release that permits the sponsor to abandon, demolish, or convert property (other than land) before the designated useful life expires. The ADO or regional airports division may grant the release when any of the following apply:

- The facility is no longer needed for the purpose for which it was developed.
- Normal maintenance will no longer sustain the facility's serviceability.
- The facility requires major reconstruction, rehabilitation, or repair.

c. Disposal of Grant Funded Personal Property. Grant funded personal property should be maintained on the sponsor's inventory for the useful life of the specific equipment. The federal obligation regarding personal property expires with the useful life of the specific piece of property. Should the sponsor desire to dispose of personal property prior to the expiration of its useful life, it should consult with the ADO or regional airports division prior to seeking release from its obligations.

d. Reinvestment of Federal Share. After the FAA has determined that a release of grant funded improvements is appropriate and that the release serves the interest of the public in civil aviation, the FAA may require the sponsor, as a condition of the release, to reimburse the federal government or reinvest in an approved AIP eligible project. The amount to be reimbursed or reinvested is an amount representing the unamortized portion of the useful life of the federal grant remaining at the time the facility will be removed from aeronautical use. Special circumstances involving the involuntary destruction of the improvement or equipment would be an exception. Depreciation of personal property may follow a different formula related to its

useful life or actual value. The FAA will require a specific project or projects and a timeline for completion for reinvestment in a new AIP eligible project.

All land described in a project application and shown on an Exhibit “A” constitutes the airport property federally obligated for compliance under the terms and covenants of a grant agreement. A sponsor is federally obligated to obtain FAA consent to delete any land described and shown on the Exhibit “A.”

22.16. All Disposals of Airport Real Property. All land described in a project application and shown on an Exhibit “A” constitutes the airport’s federally obligated property. A sponsor is federally obligated to obtain FAA consent to delete any land described and shown on the Exhibit “A.”

FAA consent shall be granted only if it is determined that the property is not needed for present or foreseeable public airport purposes. When federally obligated land is deleted, the Exhibit “A” and the approved ALP should be revised as appropriate. Where the action involves the deletion of land not acquired with federal financial assistance, there is no required reimbursement of grant revenues. However all proceeds are treated as airport revenue. Also, the airport account must receive fair market value (FMV) compensation for all deletions of airport real property from the airport (i.e., from Exhibit “A”) even if the sponsor does not sell the property or sells the property below fair market value.

After airport property is released, there are continuing restrictions on the released property. The ADO or regional airports office must include in any deed, lease, or other conveyance of a property interest to others a restriction that (a) prohibits the erection of structures or growth of natural objects that would constitute an obstruction to air navigation, and (b) prohibits any activity on the land that would interfere with, or be a hazard to, the flight of aircraft over the land or to and from the airport, or that interferes with air navigation and communication facilities serving the airport. The photo above, taken from one of Cincinnati Lunken Airport’s runways, illustrates the clear runway safety areas (RSAs) resulting from not permitting the erection of obstacles near runways. (Photo: FAA)

a. Continuing Right of Flight over all Airport Land Disposals. A total release permitting sale or disposal of federally obligated land must specify that the sponsor is obligated to include in any deed, lease, or other conveyance of a property interest to another a reservation assuring the public rights to fly aircraft over the land released and to cause inherent aircraft noise over the land released. The following language must be used:

This is hereby reserved to the (full name of the grantor or lessor), its successors and assigns, for the use and benefit of the public, a right of flight for the passage of aircraft in the airspace above the surface of the premises herein (state whether conveyed or leased). This public right of flight shall include the right to cause in said airspace any noise inherent in the operation of any aircraft used for navigation or flight through the said airspace or landing at, taking off from, or operation on the (official airport name).

b. Continuing Restrictions on Released Property. The ADO or regional airports division must include in any deed, lease, or other conveyance of a property interest to others a restriction that:

(1). Prohibits the erection of structures or growth of natural objects that would constitute an obstruction to air navigation.

(2). Prohibits any activity on the land that would interfere with or be a hazard to the flight of aircraft over the land or to and from the airport, or that interferes with air navigation and communication facilities serving the airport. These restrictions are set forth in the instrument of release and identify the applicable height limits above which no structure or growth is permitted. The airport sponsor will compute these limits according to the currently effective FAA criteria as applied to the airport. The ADO, regional airports division, and airport sponsor will not incorporate advisory circulars, design manuals, Federal Aviation Regulations (found in Title 14 Code of Federal Regulations (CFR)), or other such documents by reference in the instruments or releases issued by the FAA in lieu of actual computed limits.

22.17. Release of Federal Obligations in Regard to Real Property Acquired as Federal Surplus Property.

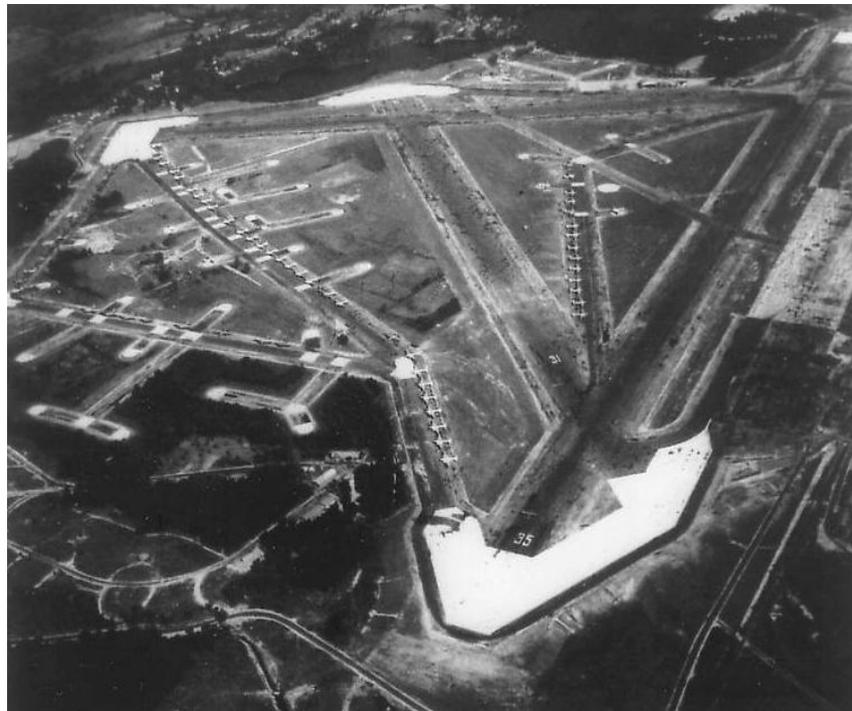

Airport sponsors receive surplus real property in many various sizes and shapes. Often the property is not ideally sized or arranged to serve the evolving needs of the airport. Adjustments can be made that benefit the airport. The airport sponsor must convince the FAA that its plans for the use, and possible disposal, of surplus property benefit the airport.

a. General Policy. A total release permitting the sale and disposal of real property acquired for airport purposes under the Surplus Property Act shall not be granted unless it can be clearly shown that the disposal of such property will benefit civil aviation. If any such property is no longer needed to support an airport purpose or activity directly (including the generation of revenue for the airport), the property may be released for sale or disposal upon a demonstration that such disposal will produce an equal or greater benefit (to the airport or another public airport) than the continued retention of the land.

In no case shall a release be granted unless the FAA determines that the land involved can be disposed of without adversely affecting the development, improvement, operation, or maintenance of the airport where the land is located. Any approved disposal must not be in excess of the present and foreseeable needs of the airport. Such a release has the effect of authorizing the conversion of a real property asset into another form of asset (cash or physical improvements) that better serves the purpose for which the real property was initially conveyed. This objective is not met unless an amount equal to the current fair market value (FMV) of the property is realized as a consequence of the release and such amount is committed to airport purposes.

b. Purpose of Release. The airport owner requesting a release of surplus airport land must identify and support the reason for which the release is requested. One justification of a release could be a showing that the expected net proceeds from the sale of the property at its current market value will be required to finance items of airport development and improvement where that need has been confirmed with FAA concurrence.

The FAA may consider requests for release from sponsors demonstrating that more value may be obtained from a disposal of specific parcels than the retention of those parcels for revenue production under leasing. Such a proposal would need to overcome the preference for holding surplus property land and leasing it for aeronautically compatible purposes that also generate airport revenue. Special care should be applied to ensure that no property that could be used for aeronautical purposes,

In no case shall a release be granted unless the FAA determines that the land involved can be disposed of without adversely affecting the development, improvement, operation, or maintenance of the airport where the land is located. Any approved disposal must be in excess of the present and foreseeable future needs of the airport. Such a release has the effect of authorizing the conversion of a real property asset into another form of asset (cash or physical improvements) that better serves the purpose for which the real property was initially conveyed. Special care should be applied to ensure that no property that could be used for aeronautical purposes, including aeronautical protection, is released. This 1944 photograph of Grenier Field in New Hampshire, which is Manchester Airport today, clearly shows how important it is to apply the release process with caution. Unused land belonging to the base might be released and, over time, incompatible land uses could take hold. Today, Manchester airport is significantly encroached upon. (Photo: USAF)

including aeronautical protection, is released.

c. Determining Fair Market Value. A sale and disposal of airport property for less than its fair market value is inconsistent with the intent of the statute and shall not be authorized. The value to be placed on land for which a release has been requested shall be based on the present appraised value (for its highest and best use) of the land itself and any federal improvements initially conveyed with the property.

In many cases, the original buildings and improvements may have outlived their useful life and a determination may have been made by FAA that no further federal obligation to preserve or maintain them exists. If they have been replaced under such circumstances, or if additional improvements have been added without federal financing, the value of such improvements does not need to be included in the appraisal for purposes of determining the fair market value of the surplus property. However, the value realized from the disposal of any improvement owned by the airport sponsor must be treated as airport revenue.

d. Appraisals. A release authorizing the sale and disposal of airport land shall not be granted unless the fair market value has been supported by at least one independent appraisal report acceptable to the FAA. Appraisals shall be made by an independent and qualified real estate appraiser. The requirement for an appraisal may be waived if the FAA determines that:

(1). The approximate fair market or salvage value of the property released is less than \$25,000;

or

(2). The property released is a utility system to be sold to a utility company and will accommodate the continued airport use and operational requirements;

or

(3). It would be in the public interest to require public advertising and sale to the highest responsible bidder in lieu of appraisals.

e. Application of Proceeds from the Sale of Surplus Real Property. Title 14 CFR Part 155.7(d) requires that any release of airport land for sale or disposal shall be subject to a written commitment of the airport sponsor to receive a fair market value for the property. FAA shall not issue a release without this commitment. Part 155 can be found in Appendix K of this Order.

(1). The net proceeds realized from the sale of surplus property – or the equivalent amount if the property is not sold – must be placed in an identifiable interest bearing account to be used for the purposes listed in (2) below.

(2). The proceeds of sale must be used for one or more of the following purposes as agreed to by FAA and reflected in the supporting documentation for the deed of release:

(a). Eligible items of airport development set forth in the current airport grant program and reflected in the airport's capital improvement program (CIP).

(b). Any aeronautical items of airport development not eligible under the grant program.

(c). Retirement of airport bonds that are secured by pledges of airport revenue, including repayment of loans from other federal agencies.

(d). Development of common use facilities, utilities, and other improvements on dedicated revenue production property that clearly enhances the revenue production capabilities of the property.

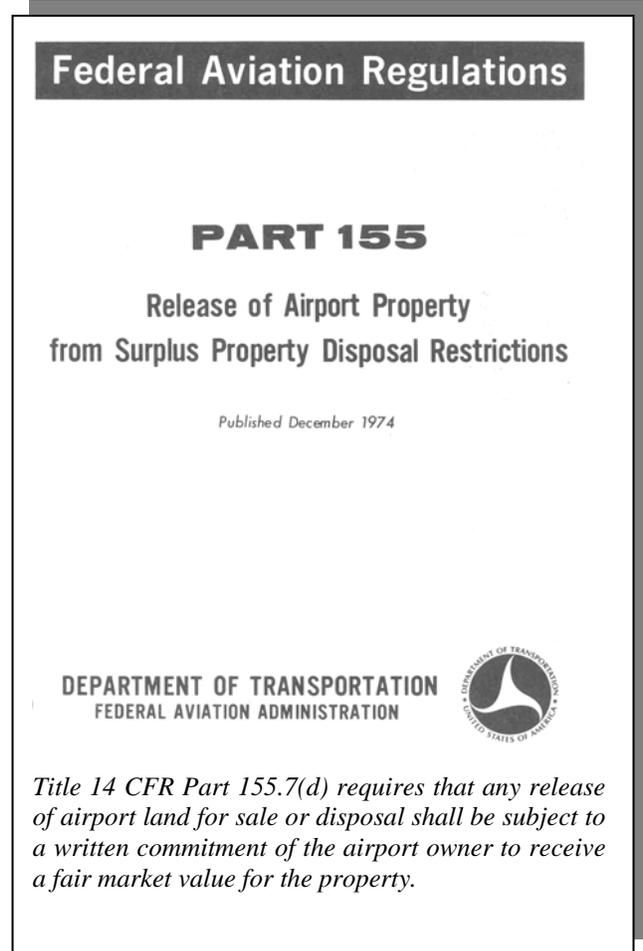

(3). All aeronautical improvements funded by the proceeds of sale will be accomplished in accordance with current applicable FAA design criteria or such state standards as have been approved by the FAA.

(4). Any interest earned by the account holding the proceeds of sale may be used for the operating and maintenance of the aeronautical portion of the airport or to enhance the revenue producing capability of the aeronautical activities at the airport.

22.18. Release of Federal Obligations in Regard to Real Property Acquired with Federal Grant Assistance.

The FAA grants funds for the purchase of real property for aeronautical use. Over time, however, such acquisitions may result in parcels that are no longer needed for aeronautical use. A sponsor may then (a) be released by FAA from the responsibility to maintain a grant-acquired parcel for its originally intended aeronautical use (making it available for nonaeronautical use to generate airport revenue), (b) be released by FAA to use the parcel for a concurrent or interim nonaeronautical use to generate airport revenue, or (c) be released by FAA to dispose of the parcel at fair market value.

Also, grant-acquired real property can be exchanged for other property not held by the sponsor but that serves an airport purpose more effectively than the originally acquired parcel. However, a grant land swap cannot result in a net loss in the value of the federal interest in the grant land.

Federal obligations of the grant land should be formally released and transferred to the new parcel.

22.19. Effect of not Receiving or Receiving a Grant after December 30, 1987.

a. Not Receiving a Grant after December 30, 1987.

(1). Applicability. This paragraph is applicable to any request for release for sale or disposal of any airport land acquired with funds from the Federal Aid to Airports Program (FAAP), the Airport Development Aid Program (ADAP), or the Airport Improvement Program (AIP) and where the sponsor has not received additional grants after December 30, 1987. A sponsor's request must assure that the federal government shall be reimbursed or the federal share of the net proceeds will be reinvested (a) in the airport, (b) in a replacement airport, or (c) in another operating public airport.

(2). Reimbursement. The requirement for reimbursement shall apply only where there is no alternative to invest in a replacement or operating public airport owned or to be owned by the sponsor. However, the sponsor may elect to reinvest the federal share of the net proceeds in any other grant-obligated public airport by contract between the respective airport owners with FAA concurrence. FAA concurrence in such a contract is contingent upon such funds being used for grant-eligible airport development. Except where the grant agreement specifically provides otherwise (by special condition), the amount to be reimbursed shall be the amount of the federal share of the grant times the net proceeds from sale of the property at its current fair market value.

(3). Reinvestment. Reinvestment of the total net proceeds (both federal and sponsor share) is required if the sponsor continues to own or control – or will own or control – a public airport or a replacement public airport. Reinvestment shall be accomplished within five (5) years (or a timeframe satisfactory to the FAA Administrator) for specified items of airport improvement in the order of priority established for releases of surplus airport property in paragraph 22.17.e above.

Unlike surplus property, the purposes for which land was acquired under FAAP/ADAP/AIP did not include nonaeronautical income production. If reinvestment cannot be accomplished within five (5) years or if the net proceeds derived exceed the cost of grant-eligible airport development, reimbursement of the remaining share will be required.

b. Receiving a Grant after December 30, 1987.

(1). Land for Airport Purposes (Other than Noise Compatibility Purposes). A sponsor entering into a grant after December 30, 1987, under the Airport and Airway Improvement Act of 1982 (AAIA), as amended by the Airport and Airway Safety and Capacity Expansion Act of 1987 (1987 Airport Act), is to dispose of land at fair market value when the land is no longer needed for airport purposes. This also applies to land purchased under FAAP/ADAP/AIP after December 30, 1987. The federal share of the sale proceeds of the land is to be deposited into the Trust Fund. The sponsor will retain or reserve an interest in the land to ensure it will be used only for purposes compatible with the airport.

(2). Land for Noise Compatibility Purposes.

A sponsor entering into a grant after December 30, 1987, under the AAIA, as amended by the 1987 Airport Act, will dispose of noise land at fair market value when the land is no longer needed for noise compatibility purposes. This also applies to land purchased under FAAP/ADAP/AIP. An interest or right shall be reserved in the land to ensure it will be used only for purposes that are compatible with the noise levels generated by aircraft. The portion of the disposal proceeds that represent the federal government's share is to be reinvested in another approved noise compatibility project, reinvested in an approved airport development project or deposited into the Trust Fund. Disposal of noise land

For a request to release an entire airport that is to be replaced by another new or existing airport, the general policy is to treat the proposal as a trade-in of the land and facilities developed with federal aid at the old airport toward the acquisition and development of better facilities at the new airport. (Photo: FAA)

may be by sale, long-term lease, or exchange. (See Program Guidance Letter (PGL) 08-2, Management of Acquired Noise Land: Inventory – Reuse – Disposal, dated February 8, 2008, updated March 26, 2009 (available on the FAA web site).

22.20. Release of Entire Airport.

a. Approval Authority. The FAA Associate Administrator for Airports (ARP-1) is the FAA approving official for a sponsor's request to be released from its federal obligations for the purpose of abandoning or disposing of an entire airport before disposal can occur. That authority is not delegated. A copy of the sponsor's request, including related exhibits and documents, and a copy of the FAA Airports regional statement supporting and justifying the proposed action shall be provided to ARP-1.

b. Replacement Airport. In the instance of a disposal of an entire airport that is to be replaced by a new or replacement airport, the general policy is to treat the proposal as a trade-in of the land and facilities developed with federal aid at the old airport for the acquisition and development of better facilities at a new or replacement airport.

Release under these circumstances is contingent upon transferring federal grant obligations to the new or replacement airport. The release would become effective upon the transfer of the federal grant obligations to the new airport, when the new airport becomes operational. Development costs for the new airport in excess of the value from the disposal of the old airport would be eligible for AIP assistance. In these circumstances, the availability of a new and better airport is the basis for determining that the old one is no longer needed and that its useful life has expired. The original grant agreement is then terminated with the transfer of the grant obligations. (See Appendix T of this Order, *Sample FAA Letter on Replacement Airport*, regarding replacement airport.)

22.21. Procedures for the Application, Consideration, and Resolution of Release Requests.

The ADO or regional airports division will base its decision to release, modify, reform, or amend an airport agreement on the procedures and guidelines outlined in this chapter and on the specific factors pertinent to the type of agreement and the release requested.

22.22 General Documentation Procedures. The sponsor's proposed release, modification, reformation, or amendment is a material alteration of its contractual relationship with the FAA. If approved, the results may have a substantial impact on the service that the sponsor provides to the aeronautical public. Accordingly, the ADOs and regional airports divisions must fully document all such actions to include the following:

- a. A complete description of the airport sponsor's federal obligations, including grant history, surplus property received, reference to appropriate planning documents (Exhibit "A" or ALP) with notations on additional land holdings and land use.
- b. A complete description of all terms, conditions, and federal obligations that may need to be modified in order to achieve the result requested by the sponsor.
- c. The sponsor's justification for release, modification, reformation, or amendment.
- d. The ADO or regional office's determination for public notice and comment or documentation of the notice and a summary of comments received.
- e. The ADO or regional office's preliminary determination on the request.
- f. The endorsement of the FAA official authorized to grant the request.

22.23. Airport Sponsor Request for Release. The sponsor must submit its request for release, modification, reformation, or amendment in writing signed by a duly authorized official of the sponsor. Normally, the sponsor submits an original request and supporting material to the ADO or regional airports division. If the FAA or other federal agencies require it, the sponsor may need to submit additional copies of the request and supporting material to headquarters offices or to the offices of other federal agencies.

22.24. Content of Written Requests for Release. Although no special format is required, the sponsor must make its request specific and indicate, as applicable, the following:

- a. All obligating agreement(s) with the United States.
- b. The type of release or modification requested.
- c. Reasons for requesting the release, modification, reformation or amendment.
- d. The expected use or disposition of the property or facilities.
- e. The facts and circumstances that justify the request.
- f. The requirements of state or local law, which the ADO or regional office will include in the language of the approval document if it consents to, or grants, the request.
- g. The involved property or facilities.
- h. A description of how the sponsor acquired or obtained the property.
- i. The present condition and present use of any property or facilities involved.

22.25. Content of Request for Written Release for Disposal. In addition to the above, the sponsor must include the following in its request for release involving disposal of capital items:

- a. The fair market value of the property.
- b. Proceeds expected from the disposal of the property and the expected use of the revenues derived.
- c. A comparison of the relative advantage or benefit to the airport from the sale of the property as opposed to retention for rental income.
- d. Provision for reimbursing the airport account for the fair market value of the property if the property is not going to be sold upon release, for example, if the municipality intends to use it for a new city office building or sports complex.
- e. A description of any intangible benefits the airport will realize from the release. The sponsor may submit a plan substantiating a claim of intangible benefits to the airport accruing from the release, the amount attributed to the intangible benefits, and the merit of applying the intangible benefits as an offset against the fair market value of the property to be released.

NOTE: Only benefits to the airport may be cited as justification for the release, whether tangible or intangible. The nonaviation interest of the sponsor or the local community – such as making land available for economic development – does not constitute an airport benefit that can be considered in justifying a release and disposal.

The nonaviation interest of the sponsor or the local community does not constitute an airport benefit that can be considered in justifying a release and disposal.

22.26. Exhibits to the Written Request for Release.

a. Drawings. The sponsor must attach to each copy of the request scaled drawings showing all airport property and airport facilities that are currently federally obligated by agreements with the United States. The sponsor should attach other exhibits supporting or justifying the request, such as maps, photographs, plans, and appraisal reports, as appropriate.

Although desirable, the FAA does not require scaled ALP drawings to support a request for release. If the FAA grants the release, the drawing serves to explain or depict the effect on the airport graphically. The drawings do not serve as the document by which the release is granted, and unless a release has been executed in accordance with the

The reasonableness and practicality of the sponsor's request for release of airport property is related to the necessary aeronautical facilities and the priority of the need. In addition, the evaluation should consider the net benefit to be derived by civil aviation and the compatibility of the proposal with the needs of civil aviation, including the balance of benefits to all users as well as to the public at large. For example, as shown in the photograph above, a request for release of the property where aircraft are parked or where a hangar is located would be denied because the property is serving an aeronautical function. On the other hand, in a case such as the one depicted below, where airport property is separated by a road, the FAA may concur in releasing the property in question for revenue-producing nonaeronautical use provided it generates fair market value for the airport, is not needed for any aeronautical function, and its use is compatible with airport operations. (Photos: FAA)

guidance contained in this chapter, the FAA will not approve any drawing inconsistent with the sponsor's current federal obligations.

b. Height and Data Computations. If the release contemplates change of use or disposal, the sponsor must provide height limit computations to limit the height of fixed objects to ensure navigation and compatible land use. It is essential to prevent an incompatible obstruction to air navigation from being located near the airport on property the airport once owned.

c. Application of Sale Proceeds. If the release action requested would permit a sale or disposal of airport property, the sponsor should provide documentation about the intended use of proceeds and evidence that the proceeds from disposal represent fair market value.

22.27. FAA Evaluation of Sponsor Requests. When the ADOs or regional airports divisions receive a request supported by the appropriate documentation and exhibits, they need to evaluate the total impact of the sponsor's proposal on the airport and the sponsor's federal obligations. This evaluation includes consideration of pertinent factors such as:

a. All of the ways in which the sponsor is federally obligated, both in its operations and its property. This includes specific federal agreements and use obligations.

b. The sponsor's past and present compliance record under all its airport agreements and its actions to make available a safe and usable airport for aeronautical use by the public. If there has been noncompliance, evidence that the sponsor has taken or agreed to take appropriate corrective action.

c. The reasonableness and practicality of the sponsor's request in light of maintaining necessary aeronautical facilities and the priority of the airport in the National Plan of Integrated Airport Systems (NPIAS).

d. The net benefit to be derived by civil aviation and the compatibility of the proposal with the needs of civil aviation, including the balance of benefits to aeronautical users relative to the public at large.

e. Consistency with the guidelines for specific types of releases, as discussed in this chapter.

22.28. FAA Determination on Sponsor Requests. The FAA will not release more property than the sponsor has requested. The statutes, regulations, and policy applicable to the specific types of agreements involved must guide the decision to grant or deny the request based on the evaluation factors. In addition, the FAA must determine if FAA Order 5050.4B *National Environmental Policy Act (NEPA) Implementing Instructions for Airport Projects*, requires an environmental review procedure. Further, it must be determined if one of the following conditions exists:

a. The public purpose for which an agreement or a term, condition, or covenant of an agreement was intended to serve is no longer applicable. The FAA should not construe the omission of an

airport from the NPIAS as a determination that such an airport has ceased to be needed for present or future airport purposes.

b. The release, modification, reformation, or amendment of an applicable agreement will not prevent accomplishment of the public purposes for which the airport or its facilities were federally obligated, and such action is necessary to protect or advance the interest of the United States in civil aviation.

c. The release, modification, reformation, or amendment will federally obligate the sponsor under new terms, conditions, covenants, reservations, or restrictions determined necessary in the public interest and to advance the interests of the United States in civil aviation (such as compatible land use for land that is disposed of).

d. The release, modification, reformation, or amendment will conform the rights and federal obligations of the sponsor to the statutes of the United States and the intent of the Congress, consistent with applicable law.

22.29. FAA Completion of Action on Sponsor Requests. The ADO or regional airports division will advise the sponsor that its request is granted or denied. It will also indicate if special conditions, qualifications, or restrictions apply to the approval. The approving FAA office may issue a letter of intent to approve the request in advance of the actual release, at the request of the sponsor.⁵¹ (See also section 22.32 of this chapter, *FAA Consent by Letter of Intent to Release – Basis for Use.*)

a. FAA Approval Action. If FAA approves the request or an acceptable modification of the request, the ADO or regional airports division will prepare the necessary instruments or documents. The ADO or regional airports division will initiate parallel action to amend all related FAA documents (i.e., NPIAS, ALP, Exhibit “A,” and FAA Form 5010, *Airport Master Record*) as required to achieve consistency with the release. The sponsor must thereafter provide the ADO or regional airports division with any acknowledgment or copies of executed instruments or documents as required for FAA record purposes.

b. Content of Release Document. The formal release will cite the agreements affected and identify specific areas or facilities involved. The ADO or regional airports division will notify the sponsor of the binding effect of the revised federal obligations.

22.30. FAA Denial of Release or Modification. When the ADO or regional airports division determines that the request is contrary to the public interest and therefore cannot grant the request, it will advise the airport sponsor in writing of the denial.

⁵¹ All such letters of intent should cite any specific understandings reached by the ADO and airport sponsor.

22.31. Procedures for Public Notice for a Change in Use of Aeronautical Property.

a. Summary. This section sets forth FAA guidance for public notice of the agency's intent to release aeronautical property or facilities from federal obligations under the grant assurances and surplus property agreements.

Section 125 of *The Wendell H. Ford Aviation Investment and Reform Act for the 21st Century* (AIR-21) requires the FAA to provide an opportunity for public notice and comment prior to the "waiver" or "modification" of a sponsor's federal obligation to use certain airport land for nonaeronautical purposes.

b. Responsibilities. The ADOs or regional airports divisions are responsible for complying with the requirements of the statute and policy guidance governing the notice and release of aeronautical property.

c. Authority. Section 125 of AIR-21 has been codified as amendments to 49 U.S.C. §§ 47107(h), 47125, 47151, and 47153.

See a sample *Notification Memo for Federal Register Notice Governing the Notification and Release of Aeronautical Property* and a *Sample Federal Register Notice Governing the Notification and Release of Aeronautical Property* at the end of this chapter.

d. Scope and Applicability. As a matter of policy, the FAA will provide public notice of a proposed release of a sponsor from its federal obligations regarding any land, facilities, and improvements used or depicted on an ALP for aeronautical use where the release would affect the aeronautical use of the property, including certain releases for which notice is not expressly required by section 125 of AIR-21. Public notice requirements apply to release of the following types of property:

(1). Land acquired for an aeronautical purpose (except noise compatibility) with federal assistance in accordance with 49 U.S.C. § 47107(c)(2)(B).

(2). Land (surplus property) provided for aeronautical purpose in accordance with 49 U.S.C. § 47151.

(3). Land conveyances of the United States Government for aeronautical purposes in accordance with 49 U.S.C. § 47125.

(4). Land used as an aircraft movement area with federally financed airport improvements.

e. Purpose. Airport property becomes federally obligated for airport purposes when an airport sponsor receives federal financial assistance. The FAA land release procedures evaluate the sponsor's request for release of land to the extent that such action will protect, advance, or benefit the public interest in civil aviation or, specifically, the public's investment in the national airport system. Section 125 of AIR-21 requires the FAA to solicit and consider public comment as a part of the agency's decision making on a sponsor's request for release.

f. Procedures. At least 30 days prior to the agency's determination of an airport sponsor's request to release aeronautical property or facilities, notice must be published in the *Federal Register* to afford the public an opportunity to comment. Public notice is also an opportunity for the FAA to obtain additional information as a part of its evaluation of the airport sponsor's request. It allows the FAA to take public comment into account in the agency's decision making. Public notice is not required for:

- (1). Approval of the interim use of airport property on a short-term period, generally not exceeding five (5) years;
- (2). Grant of utility or other types of easements that will have no adverse effect on the aeronautical use of the airport;
- (3). Release of aeronautical property as a part of a major environmental action in which public notice and comment is an integral part of the environment review; or
- (4). Release of noise compatibility land.

22.32. FAA Consent by Letter of Intent to Release – Basis for Use.

a. Use of Letter of Intent. Release and disposal of facilities developed through federal assistance is often necessary to finance replacement facilities. The sponsor may, therefore, request a letter of intent to release even if it is merely to permit the sponsor to determine the market demand for portions of the available airport property proposed for release and disposal.

b. Letter of Intent Contingencies. The ADO or regional airports division may issue such a letter of intent to release if the letter contains appropriate conditions and makes clear that actual release is specifically contingent upon adequate replacement facilities being developed and becoming operable and available for use.

c. Binding Commitment. The letter represents a binding commitment (subject to future appropriations) and an advance decision to release the property once specific conditions have been met. It should be used only when all of the required conditions pertinent to the type of release sought have been met or are specifically made a condition of the pledge contained in the letter of intent. In addition, such a letter should cite any specific understandings reached regarding anticipated problems in achieving the substitution of airport properties (i.e., who pays for relocation of various facilities and equipment and the cost of extinguishing existing leases). The letter should specify a reasonable time limit on the commitment to release. The sample *Letter of Intent to Release Airport Property* at the end of this chapter will assist in drafting such a letter.

22.33. The Environmental Implications of Releases.

a. When a sponsor accepts a federal airport development grant or a conveyance of federal surplus property for airport purposes, the sponsor incurs specific federal obligations with respect to the uses of the property. FAA action is required to release a sponsor from federal obligations in the

event the sponsor desires to sell the airport land. This action is normally categorically excluded, but may require an environmental assessment in accordance with the provisions of chapter 3, "Environmental Action Choices," of FAA Order 5050.4B *National Environmental Policy Act (NEPA) Implementing Instructions for Airport Projects*.

In this case, the assessment shall address the known and immediately foreseeable environmental consequences of the release action. As with other federal actions regarding land, appropriate coordination with federal, state, or local agencies shall be completed for applicable areas of environmental consideration (i.e., historic and archeological site considerations, section 4(f) lands, wetlands, coastal zones, and endangered species).⁵² In such cases, coordination with the State Historic Preservation Officer is required.

b. In making the final determination, the responsible federal official shall consider the effects of covenants that will encumber the title and the extent of federal ability to enforce these covenants subsequent to the release action. The standard conditions of release relative to the right of flight, including the right to make noise from such activity and the prohibition against erection of obstructions or other actions that would interfere with the flight of aircraft over the land released, may be considered as mitigating factors and may be included in environmental assessments when required. When the intended use of released land is consistent with uses described and covered in a prior environmental assessment, the prior data and analysis may be used as input to the present assessment. When the conditions set forth in the applicable sections of FAA Order 5050.4B *National Environmental Policy Act (NEPA) Implementing Instructions for Airport Projects*, apply, a written reevaluation may be used to support the property release.

c. In some cases, another federal agency may be the lead agency responsible for preparing an environmental assessment and environmental impact statement, if required. In these circumstances, the FAA may be a cooperating agency. To support the release action, the FAA may then adopt the environmental document prepared by the other agency in accordance with the provisions of Council of Environmental Quality (CEQ) 1506.3.

d. Long term leases that are not related to aeronautical activities or airport support services have the effect of a release for all practical purposes, and shall be treated the same as a release. Such leases include convenience concessions serving the public such as hotel, ground transportation, food and personal services, and leases that require the FAA's consent for the conversion of aeronautical airport property to revenue-producing nonaeronautical property. Long-term leases are normally those exceeding 25 years.

22.34. through 22.37. reserved.

⁵² See FAA Order 5050.4A, *Airport Environmental Handbook*, for additional information.

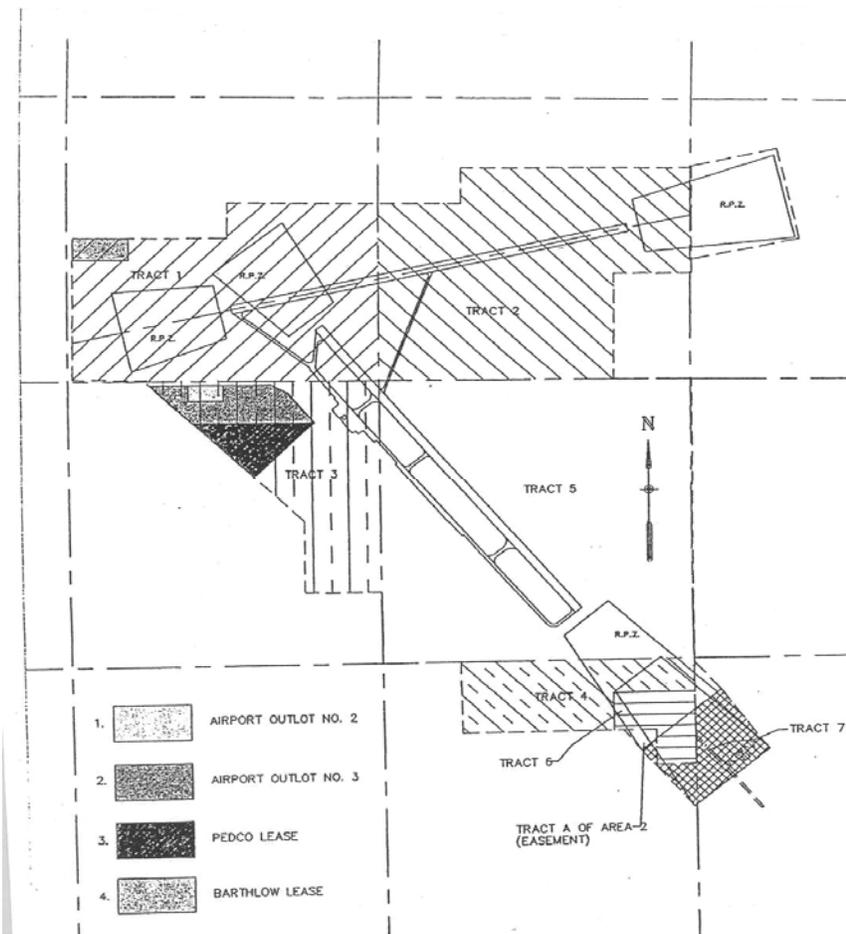

Sample NEUP Legal Description

Legal Description

1. That portion of Tract 3 of the Pierre Municipal Airport, consisting of the parcels designated as Airport Outlot 2 and Airport Outlot 3, located in the North half (1/2), Section thirty five (35), Township one hundred eleven (111) North, Range seventy nine (79) West, Hughes County, South Dakota.

2. That portion of Tract 3 of the Pierre Municipal Airport, consisting of the parcels designated as the Pedco Lease, described as starting at the southwest corner of "B" Street right of way, the point of beginning; thence south easterly along the south westerly property line of lot 6, Airport outlot 3, extended, a distance of 1441.45 feet; thence north easterly a distance of 1416.11 to the south east corner of "B" street right of way, thence west a distance of 2015.64 feet to the point of beginning.

3. That portion of Tract 1 of the Pierre Municipal Airport, consisting of the parcel designated as the Barthlow lease, located in the north 400 feet of the east 1050 feet of the west 1083 feet of the southwest quarter (1/4) of section twenty six (26), Township one hundred eleven (111) North, Range seventy nine (79) West.

The FAA will not approve a request for release of the National Emergency Use Provision (NEUP) involving the whole airport. In addition, the Department of Defense (DoD) generally does not concur with a request for release of the NEUP that involves actual runways, taxiways, or aprons. A request for release of the NEUP should be limited to parcels that are no longer needed for aviation purposes. Above is a sample visual and legal description of the specific parcels of land to which the release from the NEUP would apply. (Diagram: FAA).

Sample NEUP Release Request

U.S. Department

Administration**

Office of the Associate
Administrator for Airports

800 Independence Ave., SW.
Washington, DC 20591

JUN 23 2006

Mr. Timothy W. Bennett
Chairman, DOD Airports Subgroup
HQ USAF/XOO-CA
1480 Air Force Pentagon, Room 4D1010
Washington, DC 20330-1480

Dear Mr. Bennett:

The Federal Aviation Administration (FAA) has received a request from the Fort Wayne-Allen County Airport Authority (FWACAA) for the release of the National Emergency Use Provision (NEUP) on land at the Fort Wayne International Airport in Fort Wayne, Indiana.

The property containing the Fort Wayne International Airport, formerly known as Baer Army Airfield, was transferred to the city of Fort Wayne (the airport sponsor that later became the FWACAA) under the provisions of Section 13, Public Law 80-289 of the Surplus Property Act of 1944. The transfer document includes the NEUP provision.

As a matter of Policy, the FAA does not request a release from the NEUP for all airport property conveyed. However, we do concur with the release of the NEUP on certain designated parcels of airport property that are not currently required for aeronautical purposes. The subject land for this NEUP release request, approximately 2.44 acres, is not currently required for aeronautical purposes and is needed for the relocation of Indianapolis Road. The FAA concurs with the use of the parcel for non-aeronautical use. The attached property map and legal description depicts the subject parcel.

Consequently, in accordance with Section 7-7(d), Chapter 7, FAA Order 5190.6A *Airport Compliance Requirements*, we request the concurrence of the Department of Defense in the release of the NEUP provision on the tract of property described above and as shown in the attached documents.

Thank you in advance for your consideration. If you have any questions or need further assistance, please contact Mr. Miguel Vasconcelos at (202) 267-8730.

Sincerely,

Charles Erhard, Manager
Airport Compliance Division, AAS-400

Mr. Charles C. Erhard
Manager, Airport Compliance Division, AAS-400
Federal Aviation Administration
800 Independence Avenue SW
Washington DC 20591

Mr. Erhard

This is in response to your letter of June 23, 2006, requesting the release of approximately 2.44 acres of property at the Fort Wayne International Airport, Indiana from the National Emergency Use Provision (NEUP).

The Airports Subgroup, on behalf of the Department of Defense, concurs with the FAA to release of the NEUP on the designated parcels of airport property that are not currently required for aeronautical purposes (as shown in the attached property map and legal description). A copy of the release instrument must be provided to the appropriate District Corps of Engineers' office.

Sincerely

TIMOTHY W. BENNETT
Chairman
DOD Airports Subgroup

Notification Memo for Federal Register Notice Governing the Notification and Release of Aeronautical Property

Federal Aviation Administration Public Notice For Waiver Of Aeronautical Land-Use Assurance

Hallock Municipal Airport, Hallock, MN

AGENCY: Federal Aviation Administration, DOT

ACTION: Notice of intent of waiver with respect to land.

SUMMARY: The Federal Aviation Administration (FAA) is considering a proposal to change a portion of the airport from aeronautical use to nonaeronautical use and to authorize the sale and/or conversion of the airport property. The proposal consists of two parcels of land containing a total of 4.18 acres located on the north side of the airport along County Road 13.

These parcels were originally acquired under Grant No. FAAP-01 in 1964. The parcels were acquired for a runway that has since been abandoned and replaced by a new primary runway in a different location. The land comprising these parcels is, therefore, no longer needed for aeronautical purposes and the airport owner wishes to sell a 4.0 acre parcel for an agricultural implement dealership and convert 0.18 acres of another parcel for use as a city wastewater lift station site. The income from the sale/conversion of these parcels will be reinvested in the airport for extending the useful life of the runway pavement.

Approval does not constitute a commitment by the FAA to financially assist in the disposal of the subject airport property nor a determination of eligibility for grant-in-aid funding from the FAA. The disposition of proceeds from the disposal of the airport property will be in accordance with FAA's Policy and Procedures Concerning the Use of Airport Revenue, published in the Federal Register on February 16, 1999. In accordance with section 47107(h) of title 49, United States Code, this notice is required to be published in the *Federal Register* 30 days before modifying the land-use assurance that requires the property to be used for an aeronautical purpose.

DATE: Comments must be received on or before [Insert date which is 30-days after date of publication in the *Federal Register*.]

ADDRESSES: Send comments on this document to Mr. Gordon L. Nelson, Program Manager, Federal Aviation Administration, Minneapolis Airports District Office, 6020 28th Avenue South, Room 102, Minneapolis, MN 55450-2706.

FOR FURTHER INFORMATION CONTACT: Mr. Henry Noel, City Administrator, 163 South 3rd Street, Hallock, MN 56728, telephone (218)843-2737; or Mr. Gordon L. Nelson, Program Manager, Federal Aviation Administration, Minneapolis Airports District Office, 6020 28th Avenue South, Room 102, Minneapolis, MN 55450-2706, telephone (612)713-4358/FAX (612)713-4364. Documents reflecting this FAA action may be reviewed at the above locations.

SUPPLEMENTARY INFORMATION: Following are legal descriptions of the property located in Kittson County, MN: That part of Section 24, T161N, R49W described as follows: Commencing at an iron monument at the NW corner of said Section 24; thence South 89 degrees 40 minutes 33 seconds East, assumed bearing, along the north line of said Section 24 a distance of 2523.77 feet; thence South 27 degrees 29 minutes 58 seconds East, a distance of 33.72 feet to an iron pipe monument; being the point of beginning of the tract to be described; thence North 89 degrees 40 minutes 34 seconds East, parallel with north line of said Section 24 a distance of 400 feet to an iron pipe monument; thence South 22 degrees 18 minutes 25 seconds East, parallel with and 40 feet perpendicular to the westerly right-of-way line of Burlington Northern, Inc. railroad, a distance of 437.34 feet to an iron pipe monument; thence South 67 degrees 41 minutes 37 seconds West 317.57 feet to an iron pipe monument; thence North 27 degrees 29 minutes 58 seconds West 589.49 feet to the point of beginning, containing 4.00 acres, more or less.

That part of the NE1/4 of the NW1/4 of Section 24, T161N, R49W bounded as follows: Beginning on the north line of said Section 24 at a point which lies 557.00 feet west of the northeast corner of the NW1/4 being the point of beginning of the tract to be described; thence South 0 degrees 19 minutes 27 seconds West, assumed bearing, along a line perpendicular to said section line a distance of 172.82 feet; thence North 27 degrees 22 minutes 40 seconds West, a distance of 195.19 feet to the north line of said Section 24, thence South 89 degrees 40 minutes 33 seconds East, a distance of 90.74 feet along the north line of said section back to the point of beginning, containing 0.18 acres, more or less.

Mr. Kent L. Maurer, Manager
Jackson County- Reynolds Field
3606 Wildwood Avenue
Jackson, Michigan 49202

Dear Mr. Maurer:

Jackson County Airport-Reynolds Field, Jackson, Michigan
Letter of Intent to Release Airport Property (Approximately 68 Acres)
Parcels 15A and 62

This "Letter of Intent to Release Airport Property" is being issued in response to Mr. Chip Kraus' letter, dated May 11, 2005, and supporting documentation requesting the Federal Aviation Administration (FAA) to release the County of Jackson, Michigan (hereinafter referred to as "sponsor") of its obligations to maintain as airport property 2 parcels of land (Parcels 15A and 62). This property is located in the northeast quadrant of the airport as currently depicted in the Airport Layout Plan (ALP) and Exhibit A. This land is to be sold and/or leased for proposed use as commercial development.

The FAA is authorized to grant a release of airport property from disposal restrictions if it is determined that (1) the property to which the release relates no longer serves the purpose for which it was made subject to the terms, conditions, reservations, or restrictions concerned, and (2) the release will not prevent accomplishing the purpose for which the property was made subject to the terms, conditions, reservations, or restrictions, and is necessary to protect or advance the interests of the United States in civil aviation.

The FAA finds that Parcels 15A and 62 are no longer required for current or future public airport purposes, nor would the release thereof prevent the accomplishment of the public airport purpose for which the airport facilities were obligated.

Accordingly, this Letter of Intent represents a decision by the FAA to release Parcels 15A and 62 upon submission and/or consideration of the following conditions:

- a. The County should keep the FAA informed of its timetable for redevelopment of the two parcels. The County shall submit for review detailed information relating to the marketing and proposed use of the property.

- b. If a sale is contemplated, present to FAA a draft sales or lease agreement or agreements the County intends to execute with a prospective buyer/lessee for the property in question and disclose the sale price or rental value to be determined based upon fair-market valuation. You should submit documented evidence (such as a rezoning application and approval) indicating that Parcels 15A and 62 are rezoned in a manner that is compatible with airport operations (for example "non-residential" i.e. C-2) and consistent with Condition a. above.
- c. Federal Aviation Regulation (FAR) Part 77 (recodified as 14 Code of Federal Regulations (CFR) Part 77) surfaces must be adhered to relating to any building, structure, poles, trees, or other object on the property relating to Jackson County Airport-Reynolds Field. The County will retain a right of entry onto the property conveyed to cut, remove, or lower any object, natural or otherwise, of a height in excess of 14 CFR Part 77 surfaces relating to the airport. This public right shall include the right to mark or light as obstructions to air navigation, any and all objects that may at any time project or extend above said surfaces.
- d. A notice consistent with the requirements of 14 CFR Part 77 (FAA Form 7460-1) must be filed prior to constructing any facility, structure, or other item on the property.
- e. The property shall not be used to create electrical interference with communication between the installation upon the airport and aircraft, make it difficult for fliers to distinguish between airport lights and others, impair visibility in the vicinity of the airport, or endanger the landing, taking off, or maneuvering of aircraft.
- f. A right of flight for the passage of aircraft in the airspace above the surface of the property shall be maintained (easement) specifying that any noise inherent in the operation of any aircraft used for navigation shall be allowed.
- g. The property shall not be used to create a potential for attracting birds and other wildlife that may pose a hazard to aircraft in accordance with current FAA guidance.
- h. The Hurd-Marvin Drain has been identified on the southern portion of the subject site on both parcels. Additionally, approximately 5.48 acres of the subject property has been categorized as wetlands. These areas are specifically precluded from any development on, or disturbance of, or impacts to the Hurd-Marvin Drain, or the designated wetlands, unless they comply with the requirements of Executive Order 11990, the Fish and Wildlife Coordination Act, and the National Environmental Policy Act.
- i. The MALSR approach light plane complex and line-of-sight must not be penetrated. In order to protect these surfaces, no objects shall penetrate 14 CFR

Part 77 50:1 approach slope for Runway End 24 on Parcels 15A and 62, as depicted on the attached Figure 2-0. This drawing shall be part of the release documents between you and the prospective buyer(s).

- j. The Middle Marker for Runway End 24 is located approximately 3,275' from Runway End 24, on the extended runway centerline. FAA ingress/egress to this site shall be maintained.
- k. The lease between the County of Jackson, Michigan, and the United States of America dated May 14, 1986 shall be maintained. The lease allows FAA personnel access to Runway 24 MALSR and Middle Marker sites to maintain these NAVAIDs. The ground easements described in the lease relating to Parcels 15A and 62 are shown on the attached Figure 1-0 and shall be maintained. A narrative description of the leased areas for the MALSR and Middle Marker is described in Attachment "A". These documents shall be part of the release documents between you and the prospective buyer(s).
- l. The County will, by agreement with FAA, commit all proceeds from the sale or lease of the property to the development, maintenance and operations of the County airport system, in conformance with the FAA's revenue use policy. The revenue use policy may be accessed at the following web address:

http://www.faa.gov/airports_airtraffic/airports/resources/publications/federal_register_notices/media/obligation_final99.pdf.

Therefore, upon submission of and adherence to the above-mentioned conditions, FAA will approve the release of the property from the applicable terms, conditions, reservations, and restrictions recorded in the grant assurances.

If you need further assistance or have any questions, please contact me at (734) 229-2900.

Sincerely,

Irene R. Porter
Manager, Detroit Airports District Office

Site Descriptions

MALSR, Runway 24:

An area 400 feet wide symmetrical about the runway centerline and beginning at the end of the runway extending 1,600 feet northeast followed by an area 60 feet wide, symmetrical about the runway centerline extending an additional 1,600 feet northeast. The Unit includes light stations at 200 feet intervals, access roads, underground cables, power and control stations, transformers, access off of Airport Road, conduit under I-94 and Airport Road. Area described includes R.O.W. along I-94. The underground cables are within the area described and extend beyond.

Middle Marker, Runway 24:

An area 60 feet wide and symmetrical about the runway centerline and extending 150 feet NE of the MALSR/RAIL area. The unit includes a pole mounted marker, transformer, access road, and underground cables.

Table 22.1: Guide to Releases

Land Acquisition Circumstance	Title 49 U.S.C. Requirement to Notify Public — Release of Aero Land Use Obligation	Fed Register Notice Required	Surplus Property Deed of Release Required	Grant Assurance Letter of Release Required	Required to use proceeds for AIP Elig Dev Only (Highest Priority) or Opr & Maint.	Required to use proceeds for Noise mitigation
Surplus property transferred for aeronautical purposes	47151(d), 47153(c)	Yes	Yes	Yes, if airport has current federal grant assurances	Opr & Maint of airport	No
Surplus property transferred for nonaeronautical revenue production <u>and</u> shown on the ALP & Exhibit "A"	N/A	No	Yes	Yes, if airport has current federal grant assurances	Opr & Maint of airport	No
Surplus property transferred for nonaeronautical revenue production and <u>not</u> shown on the ALP & Exhibit "A"	N/A	No	Yes	No	Opr & Maint of airport	No
Land acquired with AIP assistance	47107(h)	Yes	No	Yes	AIP Elig Only	No
Land acquired with FAAP or ADAP assistance <u>and</u> land assurances have expired	N/A	No	No	Yes, if airport has current federal grant assurances	Opr & Maint of airport	No
Unobligated land acquired without federal assistance <u>and</u> on the ALP and Exhibit "A" as airport land <u>and</u> without federally financed airport improvements.	N/A	No	No	Yes, if airport has current federal grant assurances	Opr & Maint of airport	No

Federal government land conveyed to sponsor under U.S.C. § 47125 by a federal agency and the sponsor asks the FAA to waive the requirement that the land be used for airport purposes.	47125(a)	Yes	No	Yes, if airport has current federal grant assurances	A purpose approved by the Secretary.	No
AIP acquired development land (U.S.C. § 47107(c)(2)(B)), surplus property (U.S.C. § 47151), conveyed government land (U.S.C. § 47125), or land with federally financed improvements. Land use changed (not released) to nonaeronautical.	N/A	Yes	No	No	N/A	N/A

Sample Actual Deed of Release – Page 1

DEED OF RELEASE

WHEREAS, the United States of America, acting by and through the General Services Administrator, under and pursuant to the powers and authority contained in the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), and the Surplus Property Act of 1944 (58 Stat. 765), as amended, by instrument entitled "Quitclaim Deed" dated January 29, 1959, did remise, release, and forever quitclaim to the City of Sebastian of the State of Florida, its successors and assigns, all rights, title and interest of the United States of America in and to certain property known as Sebastian Municipal Airport subject to certain conditions, reservations, exceptions and restrictions; and,

WHEREAS, the City of Sebastian has requested the United States of America to release the hereinafter described property from all of the conditions, reservations, exceptions and restrictions of said instrument; and,

WHEREAS, the Administrator of the Federal Aviation Agency, under and pursuant to the powers and authority contained in Public Law 311 (63 Stat. 700) is authorized to grant a release from any of the terms, conditions, reservations and restrictions contained in, and to convey, quitclaim or release any right or interest reserved to the United States of America by any instrument of disposal under which surplus airport property was conveyed to a non-Federal public agency pursuant to Section 13 of the Surplus Property Act of 1944 (58 Stat. 765); and,

WHEREAS, the said Administrator has determined that the land described hereinafter is no longer needed for the purpose for which it was made subject to the terms, conditions, reservations and restrictions of the said surplus airport property instrument of transfer and that said land can be released without adversely affecting the aeronautical use of the said airport; and,

NOW, THEREFORE, for the considerations above expressed, the United States of America, except as hereinafter provided, does hereby quitclaim, convey and release unto the City of Sebastian, Florida, its successors and assigns, all rights, title and interest reserved or granted to the United States of America by the said Quitclaim Deed dated January 29, 1959, insofar as same pertains to the following described land, to wit:

A strip of land 53 feet wide, over, through and across Lots 62, 52, 51, the Allen Tract, Lots 44, 43, 42, 41 and 40 in Section 28; Lots 17, 16, 15 and 14 in Section 29; Lots 82, 83, 76, 75, 74, 53, 54 and 55 in Section 22, of the Fleming Grant in Township 31 South, Range 38 East, Township 30 South, Range 38 East which lies within 53 feet Easterly of the Baseline of Survey and/or centerline of construction according to the Right of Way Map of Section 88602-2601, State Road S-505, Roseland Road, as filed in Map Book 1, Pages 83 and 84 in the office of the Clerk of the Circuit Court, Indian River County, Florida, a part of said Baseline and/or Centerline being more particularly described as follows:

BEGINNING at a point on the Southwesterly line of and 100.22 feet S 44°32'44" E of the Northwest corner of Lot 62, Section 28 of the Fleming Grant in Township 31 South, Range 38 East, run N 11°39'14" W a distance of 800.62 feet to the beginning of a curve to the right; thence Northerly on said curve having a central angle of 07°10'15" and a radius of 5729.65 feet a distance of 717.08 feet to the end of said curve; thence N 04°48'59" W a distance of 5528.83 feet to the beginning of a curve to the right; thence Northeasterly on said curve having a central angle of 50°08'30" and a radius of 1562.88 feet, a distance of 1367.50 feet to the end of said curve; thence N 45°19'31" E a distance of 1704.86 feet to a point on the Northeast line of and 2636.77 feet N 44°37'29" W of the Easterly corner of Section 22 of the Fleming Grant in Township 30 South, Range 38 East;

excepting therefrom the existing 33 foot Right of Way for Roseland Road and containing 3.22 acres, more or less, Indian River County, Florida:

The release of the above described land is subject to the following terms and conditions:

1. That, in any instrument conveying title to the land, or granting any easement therein, Indian River County, Florida, will reserve for itself,

its successors and assigns, for the use and benefit of the public, a right of flight for the passage of aircraft in the airspace above the surface of the land conveyed, together with the right to cause in said airspace such noise, as may be inherent in the operation of aircraft now known or hereafter used for navigation of or flight in the air, using said airspace for landing at, taking off from, or operating on the Sebastian Municipal Airport.

- 2. That any instrument conveying title or granting an easement in the land shall contain a provision restricting and establishing the height of structures or objects of natural growth on the said land in accordance with the currently effective Federal Aviation Agency Technical Standard Order N18 as applied to Sebastian Municipal Airport.
- 3. That any instrument conveying title or granting an easement in the land shall contain a provision which will prohibit any use of the land that would interfere with the operation of aircraft or adversely affect the operation or maintenance of the Sebastian Municipal Airport.

IN WITNESS WHEREOF, the United States of America has caused these presents to be executed in its name and on its behalf by the Chief, Airports Division, Southern Region, Federal Aviation Agency, all as of the 10 day of January, 1963.

UNITED STATES OF AMERICA
The Administrator of the Federal Aviation Agency

BY *C. E. Ryndak*
Acting Chief, Airports Division, Southern Region

STATE OF GEORGIA)
) ss
COUNTY OF FULTON)

On this 10 day of January, 1963, before me, *Mary K. Houston*, a Notary Public in and for the County of Fulton, State of Georgia, personally appeared *C. E. Ryndak*, known to me to be the Chief, Airports Division, Southern Region, Federal Aviation Agency, and known to me to be the person whose name is subscribed to the within instrument and acknowledged that he executed the same on behalf of the Administrator of the Federal Aviation Agency and the United States of America.

WITNESS my hand and official seal.

Mary K. Houston
Notary Public in and for said County & State

(SEAL)

My commission expires 9-4-66.
